

DEAD WILDLIFE – WHAT CAN WE DO WITH IT?

Date: Monday 28 September 2009

Location: Faculty of Veterinary Medicine, Yalelaan 1, 3584 CL Utrecht

Programme:

14.30 – 15.00: Arrival and tea in the conference room C101

15.00 – 16.00: Why is it important to recognize and investigate unusual mortality?

– Thijs Kuiken, Professor in Comparative Pathology, Erasmus MC Rotterdam, and president of the scientific advice commission DWHC.

16.00 – 17.30: When is mortality unusual? How should the carcass be handled and shipped? What do we do with it at the DWHC?

– Andrea Gröne, Professor in Pathology, Faculty of Veterinary Medicine, and director of the DWHC.

17.30 – 18.30: Drink in the Schubärt gallery.

18.30 – 19.00: Tour in the Pathology room.

Registration:

To register, please call Marlène Buitelaar (tel: 030-2537925) or email her via info@dwhc.nl

Targetgroup: GP's (hunters who followed the course 'wildlife hygiene')
